## **DETAILED ACTION**

The amendment filed on February 21, 2006 has been entered. Claims 6-10 are pending.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 6-7 and 9-10 are rejected under 35 U.S.C. 102(b) as being anticipated by Toyama et al (Figures 3 and 5-6). Regarding claims 9-10, the method limitations in an apparatus claim bear no patentable weight in this instance. See MPEP 2113.

Claims 6-7 and 9-10 are rejected under 35 U.S.C. 102(b) as being anticipated by Parker (Figure 4). Regarding claims 9-10, the method limitations in an apparatus claim bear no patentable weight in this instance. See MPEP 2113.

### ***Allowable Subject Matter***

Claim 8 is allowed.

### ***Response to Arguments***

Applicant's arguments have been fully considered but they are not persuasive.

The Examiner understands applicant's interpretation of the claims with respect to Toyama et al and Parker. However, the first and second sections of corrugation of Toyama et al and Parker are in "series," in that the sections are arranged in succession of one another. The claim does not recite the orientation of the wavelengths in the sections, i.e. direction of propagation.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
